# SERVICES

## *What we do*

### **ADVISORY AND CONSULTING**

The future is for those who think beyond the boundaries of today and uncover the new sources of value.

We believe in making the changes that make the most difference. Our formula is simple: we deliver bold ideas, empowering and enhancing an already existing vision and we provide meaningful experiences creating real-life results. This is our new value equation and we help you prepare for a better tomorrow.

### **TECHNOLOGY INNOVATIONS**

The world is a global village driven by technology and it keeps evolving. In the age of the Internet of Things (IOT), the way we live, interact, and socialize, do business now is without boundaries. We design technology to drive agriculture, collect and analyze data, enumerate a demography and collect revenues, develop apps, partner with payment solution companies, proffer solutions to issues that affect everyday people

### **TRAINING AND CAPACITY BUILDING**

We build the capacity of organizations to think in new ways and to realise the value of their contribution towards shaping, and flourishing in, a new sustainable economy. We are passionate about training others skills acquisition, hospitality and other sectors as we believe this is an effective way to make a long-term impact.

We do this through a range of training courses, workshops, resources and toolkits.

### **IGR**

States and Local Governments are more than ever before looking inwards for ways to improve their revenue base so they can meet the expected developments both human and infrastructure. We are your go-to-company on innovative and less-burdening ideas on how to do that. We also make use of our platform to help governments at all levels generate and increase revenue, using the best of ICT
